February 24, 1988

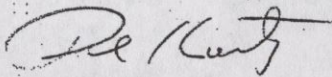

Dear Mr. McIver:

Martin Gardner has written that you sent him two excellent unpublished papers. He thought that they would be fine in FREE INQUIRY magazine. If so, we very much would like to see them for consideration and would be most pleased if you would send them to us.

He also says that you have a book manuscript that may be available. If it is not definitely committed, Prometheus Books would also like to see it for possible publication. The topic seems especially appropriate for Prometheus, and we are eager to bring out books in this area as soon as possible.

I look forward to your response.

Sincerely yours,

Paul Kurtz
